CAMPERS  
VAN CONVERSION

# DREAM. DIFFERENT.

*BUILT FOR THOSE WHO CHASE ADVENTURE, NOT HOTEL ROOMS.*

Luxury campervans engineered for those who pursue experience over ordinary.

Meticulously crafted in Australia, each Vanish Camper delivers refined design & comfort, advanced off-grid capability, and uncompromising performance.

- 
- ✓ Australian Designed & Built
  - ✓ Precision Engineered 4x4 Platforms
  - ✓ Advanced Solar & Lithium Systems
  - ✓ Architectural Interior Finishes
  - ✓ Fully Custom Layout Options
  - ✓ Premium Awning & Rooftop Solutions
  - ✓ Flexible Upgrade Packages
  - ✓ Personalised Design Process
  - ✓ Comprehensive After-Sales Support
  - ✓ 12-Month Fit-Out Warranty

*Specialising in Mercedes, Volkswagen, Ford, Toyota, Renault & LDV*

**CRAFTED WITHOUT COMPROMISE.**

# OUR STORY

---

What began as our own van conversion in 2018 quickly evolved into something far greater — a passion for crafting refined adventure vehicles designed to explore Australia in comfort and style.

Starting in our front garden with limited space and resources, we built our first van by hand — driven by a commitment to quality and a vision for something better.

As demand grew, so did we. From our first dedicated workshop in Southport to our purpose-built facility on Lawrence Drive in Nerang in March 2023, each step has marked a new chapter in our journey.

Over the years, we've meticulously refined our build process — selecting premium materials, industry-leading components, and proven construction techniques to create luxury campervans that are as functional as they are beautiful.

Today, we design and build high-end campervans for those who seek freedom without compromise — combining craftsmanship, innovation, and comfort to create vehicles ready for unforgettable Australian adventures.

**BUILT FROM PASSION. REFINED THROUGH EXPERIENCE.**

# BUILD QUALITY

## *Smart Design*

Intelligent layouts for durability and livability. Seamless storage solutions and ergonomic flow.

## *Quality Equipment*

Premium electrical systems, off-grid power, and top-tier components built to last.

## *Craftsmanship*

Expertly built by skilled tradesmen with meticulous attention to detail and safety.

## *Customisation*

Tailored interiors with your choice of finishes and lay out options to match your unique style and preferences.

## *Honest Advice*

Transparent timelines and personalised guidance. From concept to completion.

**DESIGNED WITH PURPOSE. BUILT TO ENDURE.**

# COMFORT ON THE ROAD

## *Bedding Options*

Rest. Reimagined. Choose from versatile single beds that convert into a generous double, or a fixed bed configuration with integrated rear garage storage beneath. Every vehicle includes custom-made spring mattresses as standard. Bed lengths up to 2000mm. Widths up to 1700mm. Designed for comfort — without compromise.

## *Kitchen*

Refined Functionality. A fully integrated kitchen featuring: Double induction hob, Microwave, Hot and cold running water, Sink, Fridge/freezer options from 30L to 200L, Three drawers and one cupboard. Additional storage in larger models. Practical. Elegant. Built for real use.

## *CAPTAIN'S CHAIRS*

Drive. Dine. Unwind. 180-degree swivel seats transform the driver and passenger area into part of the living space. Dine at the folding table. Recline and relax. Multiple adjustment settings ensure superior comfort and versatility — wherever you are parked.

## *SHOWER CUBICLE*

Private Comfort. Anywhere. Constructed from durable fiberglass, the spacious shower cubicle allows comfortable use of both shower and toilet facilities. Practical design. Premium finish. Comfort that travels with you.

**COMFORT, WITHOUT COMPROMISE.**

- ✓ Roadworthy
- ✓ Engineering modification
- ✓ Gas (If required)

## Electrical

- ✓ 200 Watt solar
- ✓ 3,000 Watt inverter – Renogy
- ✓ Low voltage cut off – Victron
- ✓ Battery monitor – Renogy
- ✓ 40ah 240v Charger - Amptron
- ✓ 300ah Lithium battery
- ✓ 30ah DC to DC charger – Victron

**TAILORED TO YOU. ENGINEERED FOR ADVENTURE.**

# Electrical System

## *3000W Inverter*

Power Without Limitation. Converts stored energy into usable 240V supply. Designed to run heavy-duty appliances including: electric cooker, aircon unit, microwave and 240v outlets. Seamless performance — wherever you park.

## *300AH Lithium Battery*

Energy. Stored Intelligently. High-capacity 300AH lithium system. Housed in a sealed enclosure with dedicated underbody ventilation. Safe. Stable. Built for serious off-grid endurance.

## *12V Fuse Board*

Controlled. Protected. Precise. Dedicated low-voltage circuit management for: Fridge, Internal Lights, TV, Lights, USB-C charging, Water Heater, Water Pump, Sirocco Fans & Ceiling Fans. Individually fused. Professionally integrated. Built for dependable off-grid performance.

## *Midi Fuses*

Protected at the Core. Engineered to prevent overloads and short circuits. Reliable power distribution — without compromise.

## *Solar Controller*

Regulated. Optimised. Protected. Manages voltage and current from solar panels to battery systems. Ensures efficient charging and protects electrical loads. Maximum performance. Zero guesswork.

## *DC – DC Batter Charger*

Charge While You Drive. Captures energy from the vehicle's alternator while the engine is running. Charges the house battery during driving or idle. Continuous replenishment. Effortless independence.

## *AC – DC Batter Charger*

External Power. Effortlessly Connected. Seamlessly Integrated. Connected via 240V inlet for external power supply. Charges the house battery automatically when plugged in. Smooth transition between off-grid and powered sites.

## *Electrical Inclusions*

Integrated. Expandable. Future-Ready. Solar panel system, Anderson plugs, Starlink compatibility, Additional battery options, Electric side step, Electric awning, TV aerial, Engineered for adaptability and long-term capability.

**INTELLIGENT POWER. UNLIMITED FREEDOM.**
